

# Attività di cava di marmo

**MERGERSCORP**

## Attività di cava di marmo

L'azienda è disposta a ricevere investimenti esterni per la riattivazione della cava, al fine di ricreare l'area di lavoro e iniziare a sistemare le attrezzature e il team.

A tal fine, la partnership sarà garantita da trattative reciproche con le aziende che forniranno i finanziamenti necessari.

Il Serpantiniterno viene estratto nella cava di marmo di proprietà dell'azienda. Questo tipo di marmo, con la sua tonalità di colore simile alla malachite minerale, i suoi motivi accattivanti e la sua texture naturale e autentica, è stato utilizzato in molti paesi del mondo.

Sono stati realizzati rapporti sperimentali e test sulla serpantinite.

La serpantinite è considerata un marmo di alto livello sia in termini di costo che di peso armonioso. È in perfetta armonia con tutti i colori e può essere utilizzato anche da solo in disegni e progetti.

I prezzi del marmo Serpantinite sono un po' più cari rispetto ad altri tipi di marmo. Queste rare pietre dai toni verdi, che creano un'atmosfera perfetta grazie all'illuminazione a LED, con un basso tasso di spreco e una struttura di qualità quasi a prova di bomba, sono preferite soprattutto nei progetti ad alto costo e nei luoghi di lusso, per cui il valore di mercato di questa pietra è elevato.

Il marmo serpantinite viene estratto solo in alcuni paesi del mondo come Austria, Francia e India. Mentre questo raro marmo verde è di qualità inferiore in India, nel nostro Paese ne esistono tipi di qualità superiore e più rari.
